

## Gregory Tex Yokum Award Nomination for 2022

The Gregory Tex Yokum Award is to express appreciation to an individual, other than a caver, who in some way has demonstrated support of the goals and objectives of the MSS.

Brian Wilcox, of Missouri State Parks, is a proactive supporter of project and responsible caving at Meramec State Park.

Brian has allowed, and encouraged, organized cavers to explore, document, and monitor the caves located at Meramec State Park. He understands what the organized caving community can offer and how we can work together to achieve everyone's goals.
